"October Nights"

Visit "[October Nights](#)" on MotoLyrics.com

Warm october nights
You came and cuddled next to me
baby a yea yea yea
Our noses brushed so close
I wish it was our souls
Drifting off to sleep
I could hear the little snores you made
Watching eyes shut tight

Tear me off a piece of blanket
Keep me warm and we can make it
Here's my heart, I'll let you break it
Touched your skin and I can take it

Light will creep in soon
And I still haven't slept a wink
baby a yea yea yea
I wish the sun would hide his head
So I could watch you dream some more
Wish the sun would hide his head
So I could watch you dream some more

I wanna watch you dream some more
I wanna watch you dream some more girl
I wanna watch you.

Tear me off a piece of blanket
Keep me warm and we can make it
Here's my heart, I'll let you break it
Touched your skin
