I'm formin circles in my mind  
Waitin for the storm to come  
I'm waiting for the air to paralyse  
I'm chasin shadows every night  
Waiting for a call to come  
I'm waiting for an answer on the run  
I'm formin circles in my mind  
Waitin for the storm to come  
I'm waiting for the air to paralyse

Paris collides  
Feel the light  
Of your love across the horizon  
Paris collides  
Feel the light  
Of your love across the horizon

I'm formin circles in my mind  
Waitin for the storm to come  
I'm waiting for the air to paralyse

Paris collides (I'm formin circles in my mind)  
Feel the light (waitin for the storm to come)  
Of your love across the horizon (I'm waiting for the air  
to paralyse)
