"God Of The Gods"

Visit "[God Of The Gods](#)" on MotoLyrics.com

There is a God in heaven
That the letter on paper can not describe
You can not imagine
You can not compare it's great power

He does what he wants
Sovereign and strong to infinity
Wins the fight without a fight
Wins the fight and the enemy is tired

Jehovah, God of life and victory
Jehovah, God of peace, God of glory
Lord, will change your story today

When God wants to do, nobody can stop
When the prophet sends message is delivered
Makes the cloud down, makes the water rise
And if it blows the hell does blow
It always resolves without meeting
Gets the man without God and pour anointing
His arm is capable to stop the thunder

This is God of gods my brother
