

Runga Bic "All Fall Down"

Daylight, let it stir you
Let it kiss the sleep out from your eyes
Feel this weight now, lift into the sky
On and on and on
On and on and on
Cradle, so deeply
So sleepy when I close my eyes
Sprinkle morning all over you and I
On and on and on
On and on and on
CHORUS:
Sleep tonight
Drains into the morning
Let it feel alright
It beckons like a warning
Trace it, embrace it
See it crashing through this pretty light
And yes you know me and how this thing of ours goes
On and on and on
On and on and on
CHORUS
And when we touch the ground
We all fall down
