"Last Hurrah"

All my friends
always see to win me over
Let's get together
try to shake this place

There she is
I'm too shy to get to know her
But maybe I'll go tell her
to her face

Hey! All around
we've got people dancing
like there no tomorrow
Cause who knows
This could be our last hurrah

Dive! Through the sky
A sea of people
And we're crashing through the floorboards
First floor
Living like this is our last hurrah

Here we are
Losing track of time forever
Our beating hearts could drown
the music out

Day breaks through the curtains to find
That we've been up all night
And none of us mind
That we'll want to sleep all day.

So here goes

We've got people dancing
like there no tomorrow
Cause who knows
This could be our last hurrah

Dive! Through the sky
A sea of people

And we're crashing through the floorboards
First floor
Living like this is our last hurrah

[2x]
Living like it's gonna be
our last hurrah
Living like it could be...

Hey! All around
we've got people dancing
like there no tomorrow
Cause who knows
This could be our last hurrah

Dive through the sky
A sea of people
And we're crashing through the floorboards
First floor
Living like this is our last hurrah

Oh woah
Always seem to win me over

Oh woah
This could be our last hurrah

Oh woah
We're dancing like there's no tomorrow

Oh woah
Our last hurrah
