[Rolf Kasperek]

Red-hot steel and thunder, fast and raging  
The steely arrow shoots into the night  
Heading for the unknown into darkness  
Well equipped to see the other side

Hold on, time is right to dig the lie  
Watch out, the truth will come to light

The skids are touching ground, dying engine  
You're climbing off, you're switching on the lights  
You're walking on the moon, the world of silence  
But it tells you all the secrets that it hides

Hold on, time is right to dig the lie  
Watch out, the truth will come to light

Man on the moon, prowler of the night  
Man on the moon, tell man the secrets that you hide

You see the ball of light, the steely saucer  
They're watching you and every step you'll make  
Your superiors they told you that it's fiction  
But what they say was nothing but a fake

Hold on, time is right to dig the lie  
Watch out, the truth will come to light

Man on the moon, prowler of the night  
Man on the moon, tell man the secrets that you hide

So what's the point in sending out their spaceships  
To look for something you should never find  
Why they try to keep mankind away from knowledge  
The cloven hoof is the secret that's behind

Man on the moon, prowler of the night  
Man on the moon, tell man the secrets that you hide
