A blue and blinding light  
Is devouring the dark  
Someone must be there  
It's no fancy and no lark

Footsteps trail my moves  
I turn around and no one's there  
Phantom hands that touch my back  
A pungent smell is in the air

Black-eyed visitors talk to me at night  
Revealing the truth

Sinister eyes  
Deciphering the prophecy  
Sinister eyes  
The warning of catastrophe

Muddled hours are still lost  
A weird module at my neck  
Curious voice that talks to me  
Piercing eyes that hit my back

A dream crawls through my sleep  
A small and gray skinned seer  
He talks about the universe  
I fell, I've known him for a hundred years

Black-eyed visitors talk to me at night  
Revealing the truth

Sinister eyes  
Deciphering the prophecy  
Sinister eyes  
The warning of catastrophe, yeah, oh yeah  
Catastrophe

You wonder why there's no contact  
The man of science twists the truth  
Politicians telling lies  
Ooh, these criminals have to lose

2000 years of blood and death  
No money will ever change the fate  
Army, church and government  
Can't you feel their scornful hate?

Black-eyed visitors talk to me at night  
Revealing the truth

Sinister eyes  
Deciphering the prophecy  
Sinister eyes  
The warning of catastrophe

Sinister eyes  
Deciphering the prophecy  
Sinister eyes  
The warning of catastrophe, oh yeah  
Catastrophe
