Let it rise within you now
Let the shine light up your way
Chasing all your doubts and clouds
Far away

There's a sky of newest blue
Way beyond this burning sun

A clear and perfect view
On and on

Every time it happens
Atoms scatter on the road ahead
So don't look away, don't let it stay
To other schemes instead
Don't wait too long
Can't you see that summer's come
And this world that's lipped it's crown
It took some saving
