When I'm away  
Please take good care of my heart  
And when I'm gone  
Say a prayer for love

'Cause there's cities  
And clouds in my eyes  
The empty streets  
And the raining nights  
Wherever the highway unwinds  
I'll keep coming home

Love on a wire  
Strangers walk out on the town  
Long distance words  
Outside leave the night to the young

'Cause it's touchdowns  
And runways and roads  
The bright lights, the silver and gold  
Wherever the moment goes cold  
I'll keep coming home

I'll keep coming home  
I'll keep coming home  
I'll keep coming home to you
