Since I was young, I've faced this pill  
I've worked this land and I always will  
Through life and death, I've learnt the hill  
A worker for the wind

I fake my sheep and cattle days  
The endless storm, the months of rain  
But this land holds me ball and chain  
A worker for the wind

Mary, I'll wait for you, Mary, I'll wait for you

You need heart, you need dreams  
Laughter, joy, you need beliefs  
But without love, you sow an empty field  
A worker for the wind

In through the night the light grows thinner  
The lust for love cuts like shiver  
I need to hold you through the winter  
A worker for the wind

Mary, I'll wait for you, Mary, I'll wait for you  
Mary, I'll wait for you, Mary, I'll wait for you
