"Suzie"

hello, my name is suzie

and I dream for a better, better glory

god bless you and I bless you

I'm angry why don't you squeeze me

the stage is my home and I guess when I roam

things could get out of my head

god bless you and I leave you

when the weather is hot

SUCKER, yeah !

hello, my name is suzie

don't spit on that floor like a loony

I'll bite you, so don't bite me

I'm angry why don't you squeeze me

the pain is my home and I guess when I roam

things blow away my thoughts

god bless you and I catch you

when the weather is hot

SUCKER, yeah !

hello, it's still suzie

ready to play what you like

ready to say what you don't say

immediatly to do sports
suffering a new holocaust
don't hit me, you will miss me
when the weather is hot
SUCKER, yeah !
slide and winged all the memories
sing with me this little irony
you won't escape from the reality
let us do such a sport activity
my time's too short
I missed the mark and
I can't remember why
