(extended version)

get me off

i'm your bomb getting ready to explode

i need you to get me off

be your slave do anything i'm told

chorus:

i'm a sex shooter

shootin love in your direction

i'm a sex shooter

come on play with my affections

come on kiss the gun

guaranteed for fun

I need you to pull my trigger baby

i can't do it alone

i need you to be my main play thing pillar of stone

chorus:

no girls body can compete with mine

no girls rap can top my lines

no girls kiss can ring your chimes

come on boy lets make some time

chorus:
