Close my eyes, life went by, where's all the time that
I've wasted?

Just stood still, spun my wheels, isn't it time that I've
faced it?

This moment I'm holdin' is all that I've got
I took that for granted but this time I'm not

Here's my one chance to hold you, here's my one
chance to love you

But right now I'm gonna take it, but right now, right now
I'm gonna hang on to every minute, drink it up while I'm
in it

Right now I'm gonna live for, right now, right now

I learned slow but now I know, we only get what were
givin'

Take my hand, jump on in, we've gotta love while we're
livin'

So run to me baby, don't hesitate
'Cause maybe tomorrow might be to late

Here's my one chance to hold you, here's my one
chance to love you

But right now I'm gonna take it, but right now, right now
I'm gonna hang on to every minute, drink it up while I'm
in it

Right now I'm gonna live for, right now, right now

Here's my one chance to hold you, here's my one
chance to love you

But right now I'm gonna take it, right now, right now
I'm gonna hang on to every minute, drink it up while I'm
in it

Right now I'm gonna live for, right now, right now

Here's my one chance to hold you, here's my one
chance to love you

But right now I'm gonna take it, but right now, right now
I'm gonna hang on to every minute, drink it up while I'm
in it

Right now I'm gonna live for, right now, well, right now,
yeah

Right now, right now, right now
Well, right now, right now, yeah
