Sure you can pretend
That you can forget
Every kiss we had
Everything you said
Sure you can let go
Long days of romance
Everything except
The tango we used to dance

Bridge
Everywhere you go
You'll be shown, that you're
Running from yourself

[Chorus:]
Coz every day you hear this line
Day na Day na Day na Day na Day na
You will never run away

And every time you'll try to hide
Day na Day na Day na Day na
In the night you call my name

Whatever happens
I am with you
With you

Hey Hey

You don't talk to me
Since the day you've gone
You want me to see
That I'm not the one
I know that you would say
We don't have a chance
But your heart will play
The tango we used to dance
