that was your mom who I just informed  
now go back to bed while it's still warm  
not one thing you need that is not in this lair  
lay down your arms - you're under my care

close those eyes  
goodnight-night to you  
go and doze off  
this cold winter through

and see what time will do

let's pull up a chair now Janosch is here  
for Ich mach dich gesund, sagte der Bär  
and when you're fast asleep I will play with your hair  
through my tears I will breathe you're under my care

close those eyes  
goodnight-night to you  
go and doze off  
this cold winter through

the curtain's drawn  
the sun long gone

close those eyes  
goodnight-night to you  
no, I won't take  
a straight no from you

and when spring arrives we will have to see  
if you're sick of life or - maybe - me
