(Feat. Erik Paul)

..my part, sweetheart
Pretty face, spit...
Hoping.. to know my name...
...put Nikki Minaj ...
...Chris Shawn...
I do not expect a shit, so...
But I'm just being honest,
I just want a little green up in my pockets
...and Prada, I just wanna see Nevada ...
I don't gotta... that I'mma cause a lot of drama
Hate the player, hate the game thank whoever came up
with that motto.
Why's your jaw on the floor, are you surprised?
You think I got a...
That's better, think twice
You, you think I'm hot, and you wanna know why
That I don't reply to distance and I never show excite

Chorus:

Well, keep talking bitches
I won't listen, I won't give 'em a little bit of attention!
No shit talking, not even mention
And I don't give a fuck what you have to say against
me!

There you are
what does she think she is?
She's so hot!
She should be in the kitchen making me a sandwich
Girl, can't rap, oh my God!

Chorus:

Well, keep talking bitches
I won't listen, I won't give 'em a little bit of attention!
No shit talking, not even mention
And I don't give a fuck what you have to say against
me!

Whoa!

I bet your speakers are shaking out
I bet your ceiling is shaking out
I bet your neighbors hear the sound
That this... in a hustle
..fear where I'm going
..for my haters, they can't take it...
And it's only my first mix tape
Imagine where my shit strike
Can you believe I'm this great?
Somebody please explain. Why
I'm blowing, blowing up really without any practice
..and the mother fucking fact is
I'm a girl who spins harder than all of ya'll
Other female rappers tryin' play some dolls
No Barbie, sorry rather watch football
Rather watch the Browns win
Then g to the mall

Chorus: (x3)
Keep talking bitches
I won't listen, I won't give 'em a little bit of attention!
No shit talking, not even mention
And I don't give a fuck what you have to say against
me!
