Media is your umbilical cord
It's keeps you alive with a steady diet of lies
Mind control broadcast from media
It keeps you alive
Steady diet of lies
Mind control broadcast direct from their agenda
Through your eyes and ears and into your habits
It keeps you complacent
You invite the enemy into your home
Daily insemination with filth
All the lies, fucked up values
The culture of degradation
You still wonder where it comes from
It's in you
They feed you shit and you eat it night and day
You rape yourself for them
Subdue yourself for them
Rape yourself for them
You do their work for them
