I wouldnt know what to do with another chance
If you gave it to me
I couldnt take the embrace of a real romance
It'd race right through me
Im much better off the way things are
Much much better off, better by far, by far
I wouldnt know what to say to a gentle voice
It'd roll right past me
And if you chalk it up you'll see I dont really have a
choice
So dont even ask me
Im much better off, the way things are
Much much better off, better by far
So keep on calling me names, keep on, keep on
And Ill keep kicking the crap till its gone
If you keep on killing, you could get me to settle
And as soon as I settle, I bet Ill be
Able to move on
How can I fight, when were on the same side
How can I fight beside you
So keep on calling me names, keep on, keep on
And Ill keep kicking the crap till its gone
If you keep on killing, you could get me to settle
And as soon as I settle, I bet Ill be
Able to move on
So keep on calling me names, keep on, keep on
And Ill keep kicking the crap till its gone
If you keep on killing, you could get me to settle
And as soon as I settle, I bet Ill be
Able to move on
