This can't be real
So tell me what's the deal
This something about this picture
This can't be real
So tell me what's the deal
This something about this

WOOOOOOOH YEAAAAH
OH YEAHH
OOOOOOOOOOH

I felt in love with this girl from a magazine
She's the most beautiful girl that I never seen
Her style and her smile got the best to be
I wanna know your name is
I think it's better if I skip the pages
Yeah oh

This can't be real
I wanna know was the deal
There's something about this picture
That's making me feel
A way I never felt before
I wish it could be real

I'm living a fantasy
I'm in love with the girl that's out of my reach
Infatuation of the imagination of her under my sheet
Turns me on yeah
Turns me on yeah

I've got to meet her oh
What I can do
Just to see her
Cause I need to throw this magazine away
Do I feel this way
Cause I know that I can't have her
Is this of my game
That I fight to play

This can't be real

I wanna know was the deal
There's something about this picture
That's making me feel
A way I never felt before
I want to meet her

I'm living a fantasy
I'm in love with the girl that's out of my reach
Infatuation of the imagination of her under my sheet
Turns me on yeah
Turns me on yeah

This can't be real
So tell me what's the deal
This something about this picture
This can't be real
So tell me what's the deal
This something about this

I felt in love with this girl from a magazine
She's the most beautiful girl that I've never seen
Her style and her smile got the best of me
I wanna know your name is
I think it's better if I skip the pages
Yeah oh

This can't be real
I wanna know was the deal
There's something about this picture
That's making me feel
A way I never felt before
I wish it could be real

I'm living a fantasy
I'm in love with the girl that's out of my reach

Turns me on yeah
Turns me on yeah
