You've had your eyes closed
For as long as I can remember
You're my angel
I'll be standing here
At the gates of your life
'Cause I love you, yeah

Little Girl
I love you
Spinning around inside my head
And I love you

Lying in my arms
I see the love in your eyes
They release me
And your little smile
Makes me pause for a while
Girl, I love you, yeah

Little Girl
I love you
Spinning around inside my head
And I love you
