"Heaven"

Visit "[Heaven](#)" on MotoLyrics.com

Lift me up,

Take me high,

Take me higher than I've been before,
I need time, time to find, the road to my destiny,
Heaven help me,

On the cloud to happiness is where I wanna be,
Still in my mind, I'm running out of time,
so heaven lift me up...

Scared to laugh,

Scared to cry,

For fear of my own contradictions,
Maybe I

Should try

And cover moral reasons, for God's sake,
Heaven lift me up.....

Wasn't supposed to feel this way, got too much of my
own say,
Never thought that I'd be standing at the gates of
heaven....

at the gates of heaven, heaven lift me up.

come on and life me lift me up ooooo yeah

Take me high, above the clouds where the birds fly,
I'm feeling free,

Let heaven do the work for me,
Looking over this crazy city where we're livin',
I've seen it, done it, it's just the way out there

Wasn't supposed to be this way, got too much of my

own say,
Never thought that I'd be standing at the gates of
heaven....

at the gates of heaven, heaven lift me up.
Heaven lift me, come on lift me lift me up.....

Awoh, yeah....Take it, move it, feel like it's yours,
hoping you'll find what you're looking for baby (baby),
what you're looking for?

Take it, move it, go like yours,
hoping you'll find what you're
looking for,
baby (baby), what you're looking for?

I won't fake (I won't fake),

I won't break (I won't break),

No way (no way) no.....

At the gates of heaven (never thought that I'll be
standing)
at the gates of heaven (at the gates of heaven)
At the gates of heaven, at the gates of heaven
(at the gates of heaven)
At the gates of heaven (never thought that I'll be
standing)
at the gates of heaven (heaven lift me up)Heaven lift
me up.
Take it, move it, go like its yours,
hoping to find what you're looking for,
baby (baby), (at the gates of heaven) what you're
looking for?

Take it, move it, go like yours,
hoping to find what you're looking for,
baby (baby), (heaven lift me up) what you're looking
for?
Take it, move it, go like yours,
(never thought that I'll be standing)
hoping to find what you're looking for,baby (baby),
what you're looking for?
