His face, a shadow in the ash cloud. The image of  
Catastrophe and blight  
This grin displays satisfaction as the counterpart to  
Itself  
Spirit of eradication summoned. Awakened by man's  
Inquiring mind  
Keys to annihilation chaos mastered and misapplied  
Mother chaos! Set your demons free. Unleash the  
wrath of  
Times,  
Tied in chains of denial. Evolutional wipeout, revelation  
Death  
Humans to ashes, humans to dust. His dreary  
aftermath

Cloaks the world in gray  
The spear in the chest of humanity. His face, a shadow  
in  
The ash cloud  
The image of catastrophe and blight. This grin displays  
Satisfaction  
As the counterpart to itself. A pale sun being witness to  
Crimes divine  
Silence reigns supreme, let there be... none. Nothing is  
Forever and forever is endless  
Endless nothingness, nothing less: the end
