Deep blue sea, great big world  
Setting out the sails to the open road  
Fire in my heart  
Blood on your hands

All I want is to be free  
You still try and capture me  
And I don't look back, I'm moving too fast  
Too fast too fast too fast  
I don't look back I'm moving too fast

Black widow in my home  
Spiderwebs blur my eyes  
I don't need anyone, anything, anymore

All I want is to be free  
You still try and capture me  
And I don't look back, I'm moving too fast  
Too fast too fast too fast  
I don't look back I'm moving too fast

Caught my stiff guts in your tongue today  
I'm gonna wash my, I'll wash hands clean of you  
While I'm still young  
While I'm still young

All I want is to be free  
You still try and capture me  
And I don't look back, I'm moving too fast  
I don't look back I'm moving too fast

All I want is to be free  
You still try and capture me  
And I don't look back, I'm moving too fast  
Too fast too fast too fast  
I don't look back I'm moving too fast
