V.O.H - the Victory of Heart  
Let your soul be free  
Your heart will sing  
That never-ending song  
V.O.H - all we need is love  
So don't hide your tears  
And disappear  
The sun will shine above

V.O.H - the Victory of Heart  
Let your soul be free  
Your heart will sing  
That never-ending song  
V.O.H - all we need is love  
So don't hide your tears  
And disappear  
And the sun begins to shine above

Satisfaction  
Is all that we feel  
When we're playing here our songs  
Life is action  
Don't sit, get up, come here  
I don't need to say it anymore  
You'll discover  
Everything goes right  
When the music burns your soul like a flame  
Untie all bother  
By little sincere smile  
Just let's do it, let's go dancing every day

Try me to stop  
You can only walkin' with me  
In every minute Earth  
Is moving like a rolling stone  
Time is running out  
So take your chance 'cause life is changing  
Here comes the day  
Revolution called...
