Whatever way I was,  
whatever I was looking for,  
whatever Iâ€™ve been through,  
it never seemed to make much sense  
Whenever I was sad,  
whenever I was down,  
forever I was waiting for you to come along  
As long as you wait for me  
No matter what Iâ€™ve done  
Just shake away that Iâ€™m gone  
You can still confide in me  
As long as you wait for me  
No matter where Iâ€™ve been  
Whatever I once searched for,  
whatever I once tried,  
whatever I just did  
to make my world fit right  
Not ever did I find  
whateverâ€™s on my mind  
â€™cause everything was so completely out of sight  
As long as you wait for me...

You let the sun shine bright  
You let the nights turn white  
You let me see the light on the other side  
You let the rivers flow  
You let the flowers grow  
You kill me dead by looking straight at me right now  
You let the sun shine bright  
You let the nights turn white  
You let me see the light on the other side  
You let me sense the tune  
You let me hear perfume  
You kill me dead by looking straight at me right now  
As long as you wait for me...  
(You are so kind in what you are)  
No matter where Iâve been  
(In my heaven youâre the star)  
No matter where Iâve been  
(Itâs just wonderful to know)  
(no matter where I am, you go on)  
(Follow me)  
(Stay by my side)  
As long as you wait for me...  
As long as you wait for me...  
No matter where Iâve been
