(Crowe)

I know you're a good lookin' honey baby
Blind man could see
You better take a look at your personality
Fore you start hanging shit on me
You can't live your life on the fact you're pretty
Hold it up like your head of the class
Cause the good lord above who parted the waters
Will soon start spreading your ass
All over the couch
Come on get down
Off your high horse honey
The least you can do is smile
If I am going to
Spend my money in a place like this
If we're talking then things will take care of themselves
That's fine with me
If we're talking then let's talk for real
I appreciate a little honesty
Come on get down
Off your high horse honey
The least you can do is smile
If I am going to spend my money in a place like this
Come on get down
Off your high horse honey
Loosen up and come around
You could even see something loving in a face like this
You could even see something loving in a face like this
You could even see something loving in a face like this
