(Crowe)

Wendy's got a little boy  
Someone to keep in mind for the future  
She's got no husband who cares  
She can find a man  
Anytime she wants one

Now don't you put her down  
She tried to do it right  
Sometimes things don't come out  
Quite, quite, quite the way we plan them  
Quite the way we plan them

Wendy needs a little time  
Dress her boy up  
Take him out on parade  
All those neighbours they stop and stare  
Hey look, Wendy's playing mommy again  
Sometimes she feels a little lonely  
Some days go by and all she feels is scared  
Wendy's got a little boy and no one else  
Sometimes that just gets too much for her

Wendy's lost another boy  
She's gotta take her time to adjust her clothes fall in  
love again  
Flicks through her magazines and sighs  
Hey what the hell  
They're only men  
They're only men  
Sometimes she feels a little lonely  
Some days go by and all she feels is scared  
Wendy's got a little boy and no one else
