In some time, at some place
One prisoner fell for a girl
Through the barracks

Heartrendering, heartrendering

They've taken all my freedom
I was having dark days of persecution
Between you and filthy me

A big difference, big difference

I wrote a letter
And folded it into a paper plane
Praying it'd reach you through the barracks

Fly away, fly away

Oh, to be able to get away
From here someday
It's a lie~
I know it

Your existence made me feel
Like all lies could be true~
"Come here and have a talk with me"
You'd never know my agony

Watching you from here
Was a tiny happiness for tomorrow~

Days and months passed since then
Paper planes from you were my

Happiness, happiness

Suddenly one day you said
You had to go far away

Goodbye, goodbye

Oh~
I have been living in agony
But I have never cried like this until today

Your existence made me smile
Even with any fate
Seeing you without your name
I felt a restored, bright future

I can't call you
I can't chase you
I can't get out of here
I can't do anything

Finally it's my turn
Me being without you
I have no regrets in this world
But I'm screaming in my heart

I want to live a little more
I no longer have contradictory feelings
I just want to see you one more time

Wanna see you, wanna see you

Once more, once more

I can never have back the days we spent together
I remember them all like a flash
Everything you gave me
Was my only hope to live

In the weeds filled with darkness
There was one flower that was blooming beautifully

Even though we lived in different worlds
I tried to reach out to you

If this is the last moment
Please let me talk to her
In a small chamber, closed with darkness
My screams were resounding vainly

I'm feeling so much pain in my chest

I can hardly breathe

I wanted to know

Just one thing

Your na--me...
