Got these feet in these shoes  
They walked a mile or two  
Got these legs they've done work  
That's left them black and blue

Got these hips they are wide  
But they know how to move  
Got these hands to lift the weak  
Or slap down a racist fool

This is all I  
This is all I got  
This is all I  
This is all I got

Got this place I call my home  
But it's no Taj Mahal  
Got these pockets they ain't full grown  
But I won't steal from no one

Got this heart well, it's been broke  
But it's beating strong  
Got this song it ain't much  
But it helps me carry on

This is all I  
This is all I got  
This is all I  
This is all I got

Got a will that lifts me up  
When my body can't  
Got a way of getting' through  
With no helping hands

Got a mind that lends me strength  
So I ain't afraid to stand  
Got a love so deep in me  
Can't be stopped by any man

This is all I  
This is all I got

This is all I  
This is all I got

Got these feet in these shoes  
They walked a mile or two  
Got these legs they've done work  
That's left them black and blue

Got these hips they are wide  
But they know how to move

This is all I  
This is all I got  
This is all I got

This is all I  
This is all I got  
This is all I  
This is all I got

This is all I  
This is all I got

This is all I got, all I got, all I got  
This is all I got, all I got, all I got  
This is all I got, all I got, all I got  
This is all I got, all I got, all I got  
This is all I got, all I got
