A little girl I was looking at a magazine

Wondering why I could never find too many girls that
looked like me

All I saw was hair so blond and eyes so very blue

And the words under the picture said, "and you can get
this look too"

They can not define beautiful to me

Someone else's eyes don't see what I see

Follow like I'm blind just won't do for me

God made me just fine; that's why I got to be

I-n-i, I-n-i (repeat 4x)

Some people talking about when judgment day will
come

Looking down upon those not down with their religion

You must believe in all they say and all they do

And if you don't then heaven's gates are closed to you

I do not prescribe to their philosophy

I don't think my God wants them judging me

Follow like I'm blind just won't do for me

God knows what's in my heart; that's why I got to be

I-n-i, I-n-i (repeat 4x)
