How did I wake up each day  
Before that moment I saw your face?  
Where was I before you touch,  
No where is where I was without you.  
Without you in my life was just a lie  
Before you, I don't know how I got by.

Before I met you, before I held you in the night  
(I don't know how I survived)  
Before I found you, before you made everything right  
(I was dead for life)  
I wasn't really living 'till you came into my life  
I've got to admit it, I don't know how I got by.

How did I get through those nights  
Before that moment I held you tight?  
Where was I before you kiss?  
And how did I exist without you?  
Life had no meaning, no reason and no rhyme  
Before you, I don't know how I got by.

Before I met you, before I held you in the night  
(I don't know how I survived)  
Before I found you, before you made everything right  
(I was dead for life)  
I wasn't really living 'till you came into my life  
I've got to admit it, I don't know how I got by.

I thank God when I wake up  
I'm waking next to you.  
I know what I was living for,  
Before you, before you. Oh!  
Oh, oh, oh, oh.

Before I met you, before I held you in the night  
(I don't know how I survived)  
Before I found you, before you made everything right  
(I was dead for life)  
I wasn't really living 'till you came into my life  
I've got to admit it, I don't know how I got by.

Before I met you, I don't know how I got by.
