Nothing I must do
Nowhere I should be
No one in my life
To answer to, but me
No more candlelights
No more purple skies
No one to be near
As my heart slowly dies

Chorus:

If I could hold you one more time
Like in the days when you were mine
I'd look at you
Till I was blind
So you would stay
I'd say a prayer each time you smile
Cradle the moments like a child
I'd stop the world if only I
Could hold you one more time
Mmmmm. . .

I've memorized your face
I know your touch by heart
Still lost in your embrace
I dream of where you are

Chorus
