When the night breaks in I won't spin  
Far away from what I know is real  
In this heart of mine  
Light will shine  
For I have found my chart to pilot me  
Walk between the lines  
Through this life and times  
My heart is hitting hard upon the Word  
Walk between the lines  
Seeing surer signs  
My heart is hidden deep between the lines  
When the days ahead seem full of dread  
And I'm afraid of what the future finds  
There's this place I know I can go  
I'll find the peace to clear my clouded mind  
Walk between the lines  
Through this life and times  
My heart is hitting hard upon the Word  
Walk between the lines  
Finding deeper finds  
My heart is hidden deep between the lines  
(to a secret place)  
(protected, protected in your arms)  
When the night breaks in I won't stay  
So far away from what I know is real  
If my friends turn away I won't sway  
For I have found my chart to pilot me  
Walk between the lines  
Through this life and times  
My heart is hitting hard upon the Word  
Walk between the lines  
Finding deeper finds  
My heart is hidden deep between the lines  
Walk between the lines  
Through this life and times  
My heart is hitting hard upon the Word  
Walk between the lines  
Seeing surer signs  
My heart is hidden deep between the lines
