It's in this hour
It's in my blood
I'm awake in you
And all these witnesses
They stare me in the face
This time I won't wait too long
To turn away
Fleeing from my head
Till the dawn
The dawn

Cause when all I feel
Has been taken from my mouth
This no time is real
Until I've compared it
To myself
And still I couldn't be further

It's in your faces
Familiar and true
It's what brings me here
In front of you
I'm coming on like a dove
Stitching love

Through this crude amplification
I call your bluff
And all these gods
They wait for us now
In no time we see
No reason for my doubt
And still I couldn't be further

I've been away from
I've been away from
I've been away from you
I've been away from you...you...you

Time won't wait for no one
This time won't wait
For you
This time will wait

For no one

Circle up, circle home
On this remembrance day
Circle up, circle home
On this remembrance day

Walk, walk, river walk
Running in my mind
Walk, walk, river walk
Walking all the time
Walk, walk, river walk
Running in my mind
But I don't want to walk alone
