"Friends"

Visit "[Friends](#)" on MotoLyrics.com

Conversations take to long
All you say is wrong
Your paranoid and shit
I'll take no more of it
Maybe I'm the same
I could be me to blame
You justify your need
With every lie you bleed
All my friends are lying
All my friends are dying
Your theories make me ill
I wish you'd just sit still
You satisfy your need
With every lie you bleed
I gave you a hit
We share more of it
Maybe I will drown
It's me who brought you down
All my friends are lying
All my friends are dying
You used to be my friend
I think that's gonna end
How long can I try
I'm scared your gonna die
Maybe I will drown
It's me who brought you down
All my friends are lying down
All my friends are dying
