Verse 1:

I think you are real sweet
Your love's great so are we
We go good together
Why can't your big eyes see?
Why can't we start real slow?
Two of us we can go
Up to space, all alone
No one to stop us no

Verse 2:

I agree completely
No one else
You and me
Wish it was that easy
Wish it was that easy
But it's not
Unfortunately
Have to stay
Far away
From each other
Can't be seen
I love you you love me

Chorus:

Outer Space Outer Space Outer Space Outer Space
I wish we could leave today
Outer Space Outer Space Outer Space Outer Space
Why can't we leave to day
Outer Space Outer Space Outer Space Outer Space
Outer Space Outer Space Outer Space
Outer Space Outer Space Outer Space
Outer Space Outer Space Outer Space

Verse 3:

There's so much
We can see
No one else
You and me
See the moon
And the stars
I can take
You real far
Why can't we
Leave today?
Can't take it
Can't you say
Your leaving
To a friend's?
And stay with me to the end?

Chorus:

Outer Space Outer Space Outer Space Outer Space
I wish we could leave today
Outer Space Outer Space Outer Space Outer Space
Why can't we leave to day
