We're selling our cars and our guitars  
Just to give this another round  
No one ever wanted to be big stars  
Just to pick ourselves up off the ground  
And we're rolling with the punches

We'll give you anything you ask for  
It's all yours if you want it  
You take it all so selflessly  
It's all yours if you want it  
So take it, so take it

Living in a van can be so hard  
When you're miles away from home  
Driving down the highway in the dark  
And you're feeling all alone  
But, were rolling with the punches

We'll give you anything you ask for  
It's all yours if you want it  
You take it all so selflessly  
It's all yours if you want it  
So take it, so take it

Who's with us now?
