Yes, it's time for the crew to relax  
You need a break from the hardcore tracks  
So here's a beat, it's kinda slow  
Well, laid back but the rhymes still flow

Pass a brew and we'll take a sip  
Then get back on the lyrical tip  
Me and him, him and me, we rhyme to and fro  
Yo, C, what's it called? It's just mellow

Easy, easy, easy  
Easy does it

I take it easy 'cause that's what I do best  
So just chill, don't give me no stress  
If I could, I'd go down to the beach  
And I'd wait for the posse to reach

That's right, that's the way it should be  
The sun, the sand, the breeze from the sea  
Smoke a P I P E, you know how it goes  
Yo, K, what's it called? It's just mellow

I take five whenever I please  
I put my feet up and catch me some Z?s  
I wake up and reconnect the phone  
Then play a record, maybe one of my own

Dangerous C comes and knocks at my door  
I let him in and he tries my hi-score  
We chill out and time goes slow  
Yo, bro, what's it called? Just mellow

Easy does it  
Easy does it
