You' re gonna destroy my love  
With your actions you destroy my heart  
Always bad surprises tell me tell me why  
You treat my feelings like a toy

Baby make up make up make up your mind's time wake  
up  
They gave us just one life to live  
Baby love and love and love me love is what is worthing  
The most important thing to give

But you're?  
Killing my love and it will destroy me  
But you're  
Killing love my heart' s disappointing  
I' ll love you forever but please don' t say never  
I' ll keep your remember so deep in my heart

But you're  
Killing my love and it will destroy me  
But you're  
Killing my live my heart' s disappointing  
A dream lasts forever if we dream together  
I don' t want to believe in love anymore

You're gonna destroy my life  
I was thinking to become your wife  
You give me million of your lies tell me tell me why  
You think that love is not a joy
