I'm all alone
Keep on trying to think what was so wrong
Keep on trying to analyze my love
Deep in my heart I can't cry and going on

Once in a life
You can meet a boy and feel him right
You can meet a boy that gives you a light
Once in a life he can makes you feeling fine

With you and me together
I can't say goodbye to you
You were my world
Baby you killed me in a moment with a knife and a rose
In your smile
Please

Save me baby I need you please
Save me now I don't believe you want to leave me alone
'Cos baby I can't survive you got to keep me alive
So baby save me I need your love
To keep my faith and be strong
Now we can try again to get along
'Cos baby I can't survive please baby save me

Once in a life
There's a reason to get up and fight
There's a reason that keeps you alive
Once in a life everything could be all right

With you and me together
I can't say goodbye to you
You were my world
Baby you killed me in a moment with a knife and a rose
In your smile
Please

Save me baby I need you please
Save me now I don't believe you want to leave me alone
'Cos baby I can't survive you got to keep me alive
So baby save me I need your love

To keep my faith and be strong
Now we can try again to get along
'Cos baby I can't survive please baby save me

I can't say goodbye to you
You were my world
Baby you killed me in a moment with a knife and a rose
In your smile
Please

Save me baby I need you please
Save me now I don't believe you want to leave me alone
'Cos baby I can't survive you got to keep me alive
So baby save me I need your love
To keep my faith and be strong
Now we can try again to get along
'Cos baby I can't survive please baby save me
