There is a magic, there is a flair
There is a magic, in how
We've seen it all here today
From rain down to sunshine
From the shores out to the sea
And if you ask me, I won't hesitate
Put your shoulders close to mine,
Cause there's a magic, a magic, a magic
There's a magic, a magic, a magic
There's a magic, a magic, a magic
Ooh

There is a magic, there is a flair
There is a magic, in how
You brush your hair down to your eyes
And theirs is a magic, in how
You carry paper and a pen
And if you ask me, I won't hesitate
Put your elbows to the edge,
Cause there's a magic, a magic, a magic
There's a magic, a magic, a magic
There's a magic, a magic, a magic
Ooh
