Alone, trying to fix broken dreams
And figure out what they mean
we'll go beyond

Any closer that you get to me, I'll burn
Please come closer but don't touch me
'Cos I'll burn

And now, whatever gives us life
Whatever takes it away
we'll go beyond

And now, whoever turned out the lights
Whoever made a wrong turn
we'll go beyond

Any closer that you get to me, I'll burn
Please come closer but don't touch me
'Cos I'll burn

There's gotta be another way
When you're lost up the river
There's gotta be another way
Don't you remember my face
There's gotta be another way

I swear I'll never forget
And never have any regrets
we'll go beyond

Any closer that you get to me, I'll burn
Please come closer but don't touch me
'Cos I'll burn

Any closer, any closer, any closer
Any closer, any closer, any closer
Any closer, any closer, any closer

Any closer that you get to me, I'll burn
