"Eternity"

Visit "[Eternity](#)" on MotoLyrics.com

we could lie here forever
cradled in our arms
memories locked in a cardboard box
the pain just melts away

eternity without you
is meaningless to me
eternity is just too long
if you're not here with me

your strength's my only weakness
makes me tremble at the knees
my love, i'm just. taking it back
if you're not here with me

eternity without you
is meaningless to me
eternity is just too long
if you're not here with me

eternity without you
the endless agony
eternity is just too long
share eternity with me

it was so hot in Venice
it was just me and you
we threw a penny in the wishing well
made my dreams come true
spend eternity with me
