

The Rutles "Let's Be Natural"

Visit "[Let's Be Natural](#)" on MotoLyrics.com

Time goes by, as we all know, naturally
People come and people go, naturally

Let's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeah

Stars are in the sky above, naturally
People rise and fall in love, naturally

Let's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeah

Ev'rything is ev'rything, naturally
Yeah, people cry, laugh and sing, naturally

Let's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeah

People be so natural, people be so natural, people be
so natural
People be so natural, people be so natural, people be
so natural
People be so natural, people be so natural, people be
so natural
