Now, she's left you  
Left you for another guy  
Now, she's left you  
And you feel you wanna die

She's no longer by your side  
And your tears you cannot hide  
Now, she's left you, my friend  
Now, she's left you

Now, she's left you  
And you're feeling so alone  
Now, she's left you  
Sat beside a telephone

That pulls at your heartstrings  
Every time it rings  
Now, she's left you, my friend  
Now, she's left you

Your love is up to date my friend today  
Yesterday has gone and tomorrow's on its way

Now, she's left you  
And you don't know what to do  
Now she's left you  
Go and find somebody new

You have my sympathy  
For she did the same to me  
Now, she's left you, my friend  
Now, she's left you

Now, she's left you, my friend  
Now, she's left you
