"Leave Me Now"

Leave me now, don't hang around
Just close the door
and leave the key under the plant outside
The one you bought me years ago
look how it's grown

Go away, you cannot stay here
Take your heart off of your sleeve
and let me catch my breath
I hope you haven't left a thing

It's hard enough to be here without your love
It's hard enough

Move along, you don't belong here
Wipe yourself off of my floor
and let me get some sleep
I cannot keep you in my heart

It's hard enough to be here without your
to be here without your
to be here without your love

It's hard enough
It's hard enough

Leave me now, don't hang around
Leave me now, don't hang around
