"Metal Man"

Visit "Metal Man" on MotoLyrics.com

don't make me try to listen
to that ska-core crap
just bust out some metallica
or pop in spinal tap
you say that metal's stupid
wrong i think you need a reason
that's why i wrote this song
you say i don't care cause Satan is my best friend
oh i don't know but its alright
i want you to know i don't know what you said
cause something you should know my friend
is its much too loud for me to hear
i bash my head repeatedly
hard into the wall
and fast i will will i repeat brain damage
will i fall you can't expect that?
you don't think that's alright?
well i don't care cause
i'll listen to metal all night!
