Kit says that she wants it,
hangin onto me like a disease
Jaime Skratch says she needs it,
but she don't know she got all that she needs
u say that I need it,
need to find some of that clarity
i say that i got it,
hangin out in my town of s.b.
and its alright
we ain't never gonna leave (this town)
they'll try to defeat you
try to make you go and get up and leave
don't ever let them beat you
what you got is all that you need
that's right!
