ring, ring, ring here comes the morning
waking every day to an analog
quantized walking one foot then the other
your world is boring, now it's time to look around
- chorus -
some were lost, some were found
inspiration's hit the ground now
end is near, life career, nine to five corpse working
no way out of this drought, no way
who would've thought it, would've thought, would've
thought it
who ever thought life would be this way
life is hard but it's always getting better
so don't cry for today baby, no worries
- -
so right now, let's turn on the radio
and listen to the sound, of fake processed and it's fully
unoriginal
music is choking and it's time to look around
- chorus -
pleading protest, i grab my heart and scream out loud,
yeah
come on! come on! come on!
no way out of this drought, no way
who would've thought it, would've thought, would've
thought it
who ever thought life would be this way
life is hard but it's always getting better
so don't cry for today baby, no worries
