Goodbye honey, it's nice to see ya
Goodbye, and ain't I blue
Goodbye honey, mind the door and
Maybe we will see you again
Maybe we will see you again
Goodbye honey

Goodbye honey, you know we'll miss you
Goodbye and good luck too
Goodbye honey, I hope you're happy
Maybe we will see you again
Maybe we will see you again

Cause it's been a long time coming
And I won't miss ya
It's been a long time coming
And ain't I blue

Didn't come a minute too soon
Better take a good look at yourself
You better take a look and see what's left
Cause it's been a long time coming

Daffodils and pretty things
Take all my money please
Daffodils and pretty things
Take all my money please

Cause it's been a long time coming

And I won't miss you...
